Quantum Leap

LEVEL 1

with Dr. Patrick MacManaway

Quantum Leap Level 1 is an introduction to a three part series on quantum physics and how you can effectively manage this resource to improve your profitability.

Sunlight and rainfall are natural and free assets in your production system to be managed and profited from. With the right knowledge and techniques quantum physics is another natural and free asset from which your business can benefit.

Take the Quantum Leap journey to:

- ✓ Understand quantum physics principles
- ✓ Understand how to use intuition, dowsing and kinesiology to access information and guidance
- ✓ Understand the power of connection with the intelligence of nature in your landscape
- ✓ Learn to participate with and creatively influence the fundamental processes of nature
- ✓ Understand the power of intent and attitude in influencing the success of your farming business
- ✓ Observe the impact of energy imbalance on the human body, and participate in or observe correcting these imbalances
- ✓ Learn to identify energy imbalances in animals and explore animal health and productivity benefits from correcting these imbalances
- ✓ Return home empowered to participate and creatively influence core life processes implicating soils, plant growth, animal health, machinery and farm economics.
- ✓ Experience a deep sense of ease and belonging in your home.
- ✓ Understand the power of being energetically in balance and be empowered to seek this state for yourself and your family.

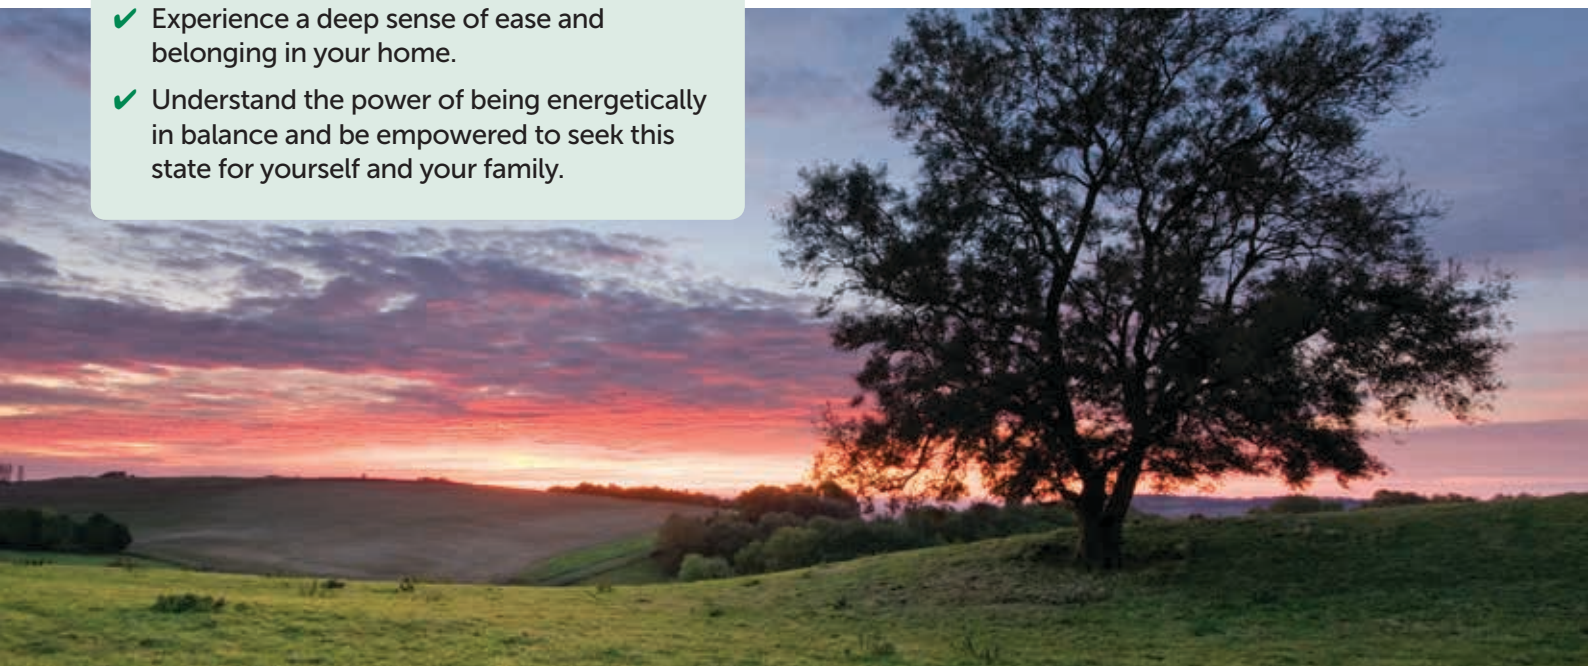

What is Quantum Physics?

Quantum physics is based on frequencies which can not be measured by conventional instrumentation but which can affect organisms at a cellular level. This science of quantum physics was first mooted by Einstein.

Quantum physics is about things which are so small that they can not be seen but which influence all forms of life. Perhaps the best analogy is to think of bacteria. Most of us have never seen one, and up until a hundred years or so ago, they were not known "or believed" to exist because they could not be seen. However, in the modern era we have instruments which allow them to be studied and we now know they rule the world.

Quantum physics is at a stage today where knowledge of bacteria was in the very beginning. It is hard to grasp and hard to measure but it is very powerful and its effect can be measured. It is best known in the health industry and its application is relatively new to agriculture.

Keep your mind like a parachute. Open it, and explore the possibilities. We invite you to learn more about this newly emerging 'old science' and experience some profound results on your own property and in your own farm buildings.

AGENDA

**Guide only. No two workshops are ever the same.*

DAY 1	
8.30	Meet and Greet
9.00 – 10.30	Welcome and History of RCS' involvement with subtle energies Principles of interconnectedness or the links between the forms of subtle energy
10.30 – 11.00	Morning Tea
11.00 – 12.30	Introduction and overview of subtle energies
12.30 – 1.30	Lunch
1.30 – 3.00	Sensory perception and intuitive practices part 1 Applications of dowsing including personal, animal and farm health
3.00 – 3.30	Afternoon Tea
3.30 – 5.00	Sensory perception and divination part 2 Human energy field form and its responses to health and trauma
DAY 2	
9.00 – 10.30	Introduction and overview of Earth Energies Residual emotional energy Indigenous residuals Importance of interconnectedness
10.30 – 11.00	Morning Tea
11.00 – 12.30	Water dowsing demonstration and practice Geopathic stress and underground water effects
12.30 – 1.30	Lunch
1.30 – 3.00	Tuning in to over-ground energies Introduction to international boundaries
3.00 – 3.30	Afternoon Tea
3.30 – 5.00	The powers of mind Discussion of healing
DAY 3	
9.00 – 10.30	Connection and conversation with landscape
10.30 – 11.00	Morning Tea
11.00 – 12.30	Learning to read earth energy health Strategies to heal residual energies
12.30 – 1.30	Lunch
1.30 – 3.00	Bringing up the Life Force Energy enhancing techniques
3.00 – 3.30	Afternoon Tea
3.30 – 5.00	Life of landscape, life of people Freeing the mind Review, conclusion, Q&A

"This is the next great development in agriculture and it's free. This course will put you on the path to using powerful, ancient knowledge."

– RCS Director, Dr. Terry McCosker

About Dr. Patrick MacManaway

Dr. Patrick MacManaway has produced some of the first scientific evidence of the effects of quantum physics in modern agriculture with yield increases in potatoes of 4%, 16%, 18%, 42% and 47% on five different varieties.

Patrick holds a Medical Degree from the University of Edinburgh and is an international holistic therapist, specialising in work with landscapes, geopathic stress and earth acupuncture.

Patrick brings a holistic perspective to enhancing the health and vitality of landscapes. Early agricultural practices seeking to balance these factors in the landscape have been shown to increase the growing season and to directly affect plant, animal and human health.

This re-emerging knowledge is now becoming integrated with great promise for enhancing our immediate domestic and working environments as well as guiding stewardship practices in the landscape at large.

Patrick heads the RCS three-part Quantum Leap Workshop Series, is available for One-on-One Consulting and Follow Up whilst in Australia and has a 12 month Remote Maintenance Package for those wanting ongoing assistance.

Dr. MacManaway utilises knowledge and skills passed down from generations before, resulting in him being a highly sought after landscape, crop and livestock consultant across Europe, America and now Australia!

What previous participants have said...

.....

"Energy is just as important as water, nutrition and anything else that contributes to our holistic health. We must acknowledge it in our lives and farms and worlds generally."

– **Dominic Makim, NSW**

.....

"Patrick communicates subtle energy principles in such a clear and practical way with wisdom, heart and humour that I felt encouraged to try new approaches immediately. I hadn't learnt dowsing before and right after the course was able to put my new skills into practice on a daily basis."

– **Janette Hill-Tonkin, W.A.**

What will I learn?

- ✓ How to apply quantum physics to landscape, stock and crops
- ✓ The background, the science and how it links to you
- ✓ How to develop new skills and how to test those skills
- ✓ Just how powerful you can be

Quantum physics has been used to...

- ➔ Restore the health of livestock
- ➔ Increase production in crops by up to 40%
- ➔ Improve production of land
- ➔ Reduce pest and disease incidences in crops
- ➔ Improve the quality of produce

It is free to those who have the desire and intent to learn how to use it.

Dr. Patrick MacManaway's 2020 Australian dates

QUANTUM LEAP LEVEL 1 WORKSHOP

Millthorpe, NSW (near Orange)
13-15 October 2020

Kandanga, QLD (near Sunshine Coast)
31 October to 2 November 2020

QUANTUM LEAP LEVEL 2 WORKSHOP

Kandanga, QLD (near Sunshine Coast)
21-23 October 2020

QUANTUM LEAP GRADUATE CIRCLE

Kandanga, QLD (near Sunshine Coast)
24-25 October 2020

CONSULTING

October 2020

PRICE FOR 3 DAY WORKSHOP

Early Bird <i>Book and pay in full at least one month prior.</i>	\$1,539
Current ExecutiveLink™ Member(s)	\$1,539
Single Person	\$1,979
Same Level Quantum Leap Repeat	\$550

Special prices available to school aged children.

To register or for further information on
Quantum Leap Level 1 workshops...
