

RCS DistrictLink

Through facilitated, peer-to-peer workshops, you'll implement RCS' Principle Based Management, develop local networks and maintain momentum.

This one-day workshop will help you and a small group of peers to convert knowledge into skills. Guided by RCS advisor Raymond Stacey, the open forum format encourages discussion of practical implementation methods that address your current challenges.

By working in small groups of six to eight businesses from your area, you will have more time to focus on your own grazing business. There will likely be a variety of skill levels and knowledge, with focus on:

- ✓ The first four Grazing Principles
- ✓ Pasture budgeting
- ✓ Matching stocking rate to carrying capacity
- ✓ Your topics – what is most important to your business right now?

By mastering the RCS Regenerative Grazing Principles, you'll get the most out of your land, livestock and business. Meet others in your region and form valuable networks.

"Really enjoyable. Was really beneficial having a small group. We were able to ask plenty of questions and get help."

– Rowena Williams, Nebo QLD

Moranbah District, QLD

Price: \$500 incl. GST per business (up to four participants)

WHEN: Monday 21st June 2021

WHERE: Tomaren, Moranbah
